

3D GeoModeller USER MEETING

Thursday 28 October 2010

9.00 am – 5.00 pm

The European GeoModeller User Meeting will provide a forum for GeoModeller users to present examples of their work using GeoModeller, and to share their experiences with other users. In addition software developers from Intrepid Geophysics and BRGM will showcase new developments, which are due in the next release of GeoModeller. Entry to the GeoModeller User Meeting is free of charge.

New Developments: GeoModeller v2.0

- Apparent Dip
- Thin Bodies
- Advanced Visualisation – Meshes
- Drill Hole Log Import
- Geostatistics Module & Link to Isatis
- Gravity and Magnetics Inversion Module
- Seismic Horizons Import / Export

New Case Studies

- Geothermal Modelling in Europe and Australia
- Effects of geological uncertainty in 3D model building
- Visualisation of micro-seismic events for geothermal reservoir applications

The User Meeting will be followed by two workshops on 29th October 2010:

- [Introduction to 3D GeoModeller](#)
- [Advanced 3D GeoModeller](#)

Location:

**BRGM: 3, avenue Claude-Guillemin
45060 ORLEANS
FRANCE**
